End of the San Francisco Wheat Deal

SUIT ON ACCOUNT OF STOCKS-

Killed by a Rattlesnake—Criminal Suit for Boycotting—Result of the Bezirk Contest.

Associated Press Dispatches to the HERALD.

SAN FRANCISCO, June 4.—The demand made on Saturday, on the short interest for the round deliveries of wheat, did not bring about the expected heavy purchasing in the call board this morning, introduced to meet outstanding engagements. This apparently shows no disposition on the part of the winning side to force values to a higher level, as the short operators are inclined to accept the situation and cancel their obligations at the current figures, $2.10 per cent.

HOW THEY WILL ADJUST IT.

It is understood that a settlement on this basis is so universal that everything is expected to be adjusted in a day or two, when the transfers in the books will show a clean record. The deal is practically over, though it will take a few days to determine whether values will soften or not.

Suit on Account of Stocks.

SAN FRANCISCO, June 6.—Frank O'Brien has sued Greenebaum & Strauss, stockbrokers, and Henry Wolfsohn, to recover certain shares in Consolidated California, Con. Virginia and Ophir Mining companies, and $18,000 in coin of his which was in the hands of Greenebaum & Strauss, and which was valued in all at $75,000. This amount, the plaintiff alleges the defendants converted to their own use. It is further alleged that Wolfsohn has paid certain creditors wrongfully to the exclusion of plaintiff. Plaintiff also petitions that the appointment of Wolfsohn as administrator be annulled.

Killed by a Rattlesnake.

ANDERSON, Cal., June 6.—S. Armstrong,s three year old child was bitten by a rattlesnake yesterday and died before proper medical assistance could be procured.

Suit for Crime of Boycotting.

SAN FRANCISCO, June 6.—Suit has been commenced by George B. Mowry against members of the Boycotting Association in this city for $25,000. The plaintiff avers that defendants, by having published and distributed pamphlets stating that he sold Chinese pork, and asking the public to boycott him, have seriously injured him. He further avers that the charges contained in their pamphlets were false and libelous.

TURN-BEZRIK CONTESTS.

Los Angeles Men Sweep the Swimming Pool.

Special Dispatch to the HERALD.

SAN DIEGO, Cal., June 6.—The prizes of the South California Turn-Bezirk were distributed at Leache's Opera House tonight by President Kuherts.

WINNING GYMNASTS.

The following Turners were presented with diplomas for excellence in gymnastic exercises: Henry Hyman, of San Diego, received the first prize: Louis Tag, of Los Angeles, second: Paul Flammer, of Los Angeles, third and W. Aul, of San Diego, the fourth.

WINNING SWIMMERS.

For the best swimmer the award was received with applause after a most exciting contest, by R. G. Weyse, of Los Angelas, who made most astonishing speed. He was the victor, and received the first diploma; J. A. Fuherbery, the second; George Schrader, the third; L. Jaennichen, the fourth, all of them from Los Angeles.

EXCURSION AND BALL.

A grand excursion went down to the seashore at Point Loma, this afternoon. About two hundrod Turners and their friends took passage and had a prosperous trip. A grand ball closed the festivities to-night.

French and Booty Ranches Sold.

SANTA ANA, Cal., June 6.—The approaching Atchison, Topeka and Santa Fé Railroad, and the probable extension of the Santa Ana branch of the Southern Pacific Railroad through from Santa Ana to San Diego, are probably two of the causes of the present great demand for real estate.

A San Francisco and Los Angeles syndicate to-day purchased the Booty and French tracts for $50,000. The advance in real estate is not confined to Santa Ana, but embraces the whole Santa Ana valley.

Concerning the Oregon and California Railroad.

PORTLAND, June 6.—The Oregon and California Railroad Company to-day applied to the United States Court for permission to enter into a contract with the Pacific Improvement Company, of California, for the construction and equipment of the uncompleted portion of the line, and to replace the present iron rails with steel. This application is made necessary by the injunction placed upon the company when it was in the hands of a Receiver.

Diminished Fruit Crop in Oregon

ALBANY, Or., June 7.—A gentleman just returned from a trip through Linn and adjoining counties, states that fruit of all kinds will be not more than one-fourth of the usual crop, for the first time since fruit became one of the staple products of the Willamette valley. It seems likely there will be almost an entire failure of the crop. Late frosts have accomplished this work.

The Northern Frost.

ST. HELENA, June 6.—Unseasonable weather still prevails here, alternating in extreme heat and cold. The vines have received a further blight, but not serious. A light frost is reported at Calistoga this morning.

The Usual Murder.

UKIAH, Cal., June 6.—At Hopland, about 4 o'clock Sunday afternoon, Henry Willard shot Fred Andrews with a pistol in the left temple. The difficulty arose from an old quarrel. Andrews cannot live.

The Little Boy and His Gun.

FRESNO, June 6.—The little son of Mrs. Sherwood, of Oleander, was shot in the thigh by his cousin, Lee Sherwood, on Saturday evening. Lee was showing his aunt how the gun-locks worked and snapped them, when the gun was discharged. The boy's thigh was amputated, but the boy died last night.

Possible Death of Al. Sieber.

GLOBE, A. T., June 6.—Troops from San Carlos are on the trail of the rebellious Indians, but it is doubtful if they will capture them. The number of Indiana out does not exceed thirty. Sieber is said to have mortally wounded an Indian before he was himself shot, and who has since been reported dead.

Safe Robbery.

PORT TOWNSEND, W. T., June 6.—The safe in Thomas Bishop & Co's butcher shop was robbed last night of over $700 and some jewelry. Entrance had been effected through a rear window, and the safe combination was obtained. No clue to the thieves.

New Wine Distillery.

SANTA CRUZ, Cal., June 6.—A meeting of the wine growers was held at Vine Hill yesterday, and it was decided to organize a joint stock company and erect a winery in this city, to cost $30,000, for the purpose of distilling and ageing wine.

Reduction Works Burned.

SAN FRANCISCO, June 6.—The *Call's* Nogales special says: "News has been received here that copper reduction works of the Compagnie Colo, at Santa Rosario, have been partly consumed by fire. The loss is half a million dollars."

Employees Reject a Reduction.

READING, Pa., June 6.—A committee, representing 1800 employés of the Reading Iron Works, notified the management to-day that the employés would not accept the proposed reduction of wages.

New Bank at San Diego.

SAN DIEGO, June 6.—The Bank of Oceanside was incorporated to-day. Capital, $50,000. Bankers principally Eastern.

Notary for Los Angeles.

SACRAMENTO, June 6.—The Governor has appointed Conrad Jacoby a Notary Public at Los Angeles.

Daniel Sully.

The Opera House last night was filled to its utmost capacity, and it will continue to be so for the balance of the week. Everybody who attended was enthusiastic over the performance of Daniel Sully and his company, everyone of whom are artists in their lines. As the saying is, the company "caught on" and the piece presented, "*Daddy Nolan*," was replete with bright, witty and sparkling dialogue. That every one was pleased was evidenced by the hearty laughter which greeted the bits of fun and frolic which were numerous. One reason why everybody was so pleased was that there were no waits, and the scenes and dialogue passed by in quick succession, each actor seeming to be fitted especially for the part taken. To-night the world renowned *Corner Grocery* will be given and there will not be standing room. To demonstrate how well Dan'l Sully's performance was appreciated last night by his countrymen, the following, which speaks for itself, is given:

EDITOR HERALD—Allow us as representative Irishmen of the city of Los Angeles, through the columns of your valuable paper, to return thanks to Mr. Dan'l Sully for his noble and artistic representation of the Irish character at the Grand Opera House last night. In these days of Pat Rooney's McSwigan Parliaments we are glad to see one actor doing his duty towards the Irish.

Respectfully,

[Signed] P. J. O'NEILL,
G. D. KIRWAN.

Preliminary Arrangements.

The Police and Constables met last evening in Justice Austin's Court room to make arrangements for the coming ball game to take place next Saturday afternoon, Captain Tyler in the chair. Mr. A. C. Clark was selected as Secretary, J. S. Skinner was elected Treasurer. A. C. Clark moved that the Seventh Infantry Band be engaged and that both nines parade on the day of the game. Carried. It was suggested that the uniforms of some of the other clubs be adopted, but some opposed this idea and thought something odd should be adopted. On motion of Ed. Smith, Messrs. Ed. Smith, Chief Skinner and F. Smith were appointed as a committee to select the uniforms. On motion of A. C. Clark the following were appointed as a committee of arrangements: Messrs. Clark, Alexander and Clemens. On motion of Mr. Clark it was ordered that Chief Skinner be assessed $5, the Umpire be assessed $5, Capt. Tyler $2.50, Secretary Clark $2.50, and the members of the nines $2 each for the purpose of paying the expenses of the game. The meeting then adjourned.

British Benevolent Society.

At the regular monthly meeting of this society held last night at the office of the Hon. Secretary, the following officers were elected: President, G. G. Charlton; First Vice-President, Rusk Harris; Second Vice-President, James Taylor; Hon. Secretary and Treasurer, W. R. Blackman.

Directors—E. P. Tomkinson, A. G. Dobinson, Thomas Vaughan, F. H. Rogers and Thomas Pascoe.

Board of Relief—P. G. Dddy, C. A. Sumner and J. O. Machean.

Hon. Physicians—Doctors. H. Worthington, H. Nadeau and R. S. Den.

The meeting decided, by a two-thirds vote of all the members of the Society, to incorporate and the attorneys were instructed to prepare the necessary papers. This action has become necessary owing to the fact that the Society now owns valuable real estate in the city. A hearty vote of thanks was passed to Capt. A. J. Hutchinson, the retiring President, who, it was announced, has generously donated the furniture to the proposed Victoria Cottage Hospital, to be erected in honor of the Queen's jubilee.

Thanks.

The Grand Army Post of this city tender their hearty thanks to all persons who rendered their assistance, or who in any way aided them in its very successful observance of Memorial Day, May 30th, 1887. By order of the Committee.

E. P. JOHNSON, Chairman.

EASTERN.

Order to Stop the Landing of French Convicts.

WALSH BRACES UP O'BRIEN.

What Gladstone Does—Republican Chairman's Opinion of Blaine—Bonds.

Associated Press Dispatches to the HERALD.

WASHINGTON, June 7.—Assistant Secretary Maynard to-day telegraphed to the Collector of Customs at San Francisco to prevent the landing of French convicts from New Caledonia, should any arrive at this port. Previous instructions on this subject were sent by mail, and it was said that immigrants might arrive at San Francisco before the letter.

O'Brien Braced Up.

NEW YORK, June 6.—Editor O'Brien was at his room in the Hoffman House all the morning. He received many callers. Peter Walsh, of District Assembly 75, Knights of Labor, called and said: "I came to say that of the 700 men who marched on Saturday night of our assembly, four-fifths are in sympathy with your action. I have spoken with most of them."

What Gladstone Does.

LONDON, June 6.—The *Times* says Gladstone audaciously triumphs in his own wrong.

Opinion About Blaine.

PITTSBURG, June 6.—Ben. Jones, Chairman of the Republican National Executive Committee, left for New York this morning. He said, while he did not go there expressly to see Blaine, he would be present and bid him good bye. He stated further that neither he nor any other person could say whether or not Mr. Blaine would come out as a Presidential candidate. He thought he was not seeking the nomination.

Fairchilds' Financial Opinion.

SAN FRANCISCO, June 6.—An *Examiner* Washington special says: Secretary Fairchilds thinks the financial condition would indicate that all redeemable bonds are now paid up, and it is estimated the surplus for next year will be $100,000,000. Forty millions of this will be used in anticipating the interest on all outstanding bonds. The Secretary will not buy any bonds on the market because he thinks the premium is high enough now. He does not think a special session will do his Department any good.

NOT LIKE THE MAINE LAW.

The Protection in California Wines.

NEW YORK, June 6.—The *Sun*, in speaking of the California Pure Wine law, says the passage of the law shows how important an interest the wine producing business of California has become. Wine growers and wine makers in that State have actually induced the Italian government to undertake to guarantee the products of their trade. It is a remarkable undertaking. The efficiency of the law seems to depend more on the good faith of the parties concerned than upon their detection and punishment. Nevertheless, we suppose a State label on a bottle or barrel will help the sale of California wine to a certain extent. It is legislation of a very different sort from the Maine law.

Blaine Getting Ready.

NEW YORK, June 6 —James G. Blaine arrived at the Fifth Avenue Hotel yesterday morning. Mrs. Blaine, with her two daughters, Marguerite and Hattie, will reach the city to-morrow and sail with Blaine on the steamer Ems next Wednesday, for Southhampton, whence the party will proceed at once to London. Very few persons called on Blaine, as the fact of his arrival was not generally known. He appears to be in good health.

Horse Stealing in New Mexico.

ALBUQUERQUE, N. M., June 6.—A telegram received from the Deputy Sheriff of Socorro this morning states that eighteen head of horses crossed over the San Antonio river bridge on Saturday night driven by two white men. A description of the horses answers to those stole from the Kleinworts' ranch near here one day last week.

National Opera Company to Bayreuth.

LONDON, June 6.—Herr Seidl and Stanton, of the American National Opera Company, have gone to Bayreuth to conclude a contract for the recently presented production of Wagner's lyric dramas in America. Herr Seidl has acquired the American right to perform a Wagner symphony which he will produce in the autumn.

Trouble at Zanzibar.

BERLIN, June 6.—Advices from Zanzibar say that Karl Peters, Chief of the German-African Society, recently raised a military force and marched against the natives of Dores Salaam to compel them to sign treaties. The German Consul, however, assisted by a man of-war, dispersed his force. It is expected that Peters will take a force of men to Pangani and cause further trouble.

Efforts to Stop Inflowing Sea.

VIENNA, June 6.—The efforts of thousands of workmen for three days and tons upon tons of stone and earth proved sufficient to stop a gap in the Kistio sea dyke, in the submerged districts of Hungary. It is agreed on all hands that the bursting of the dyke is due to culpable negligence on the part of the government, which has often been warned of its weakened condition.

An Example For Los Angeles.

HAMBURG, June 7.—Houses in this city which were occupied by 10,000 people, have been demolished to allow improvements connecting the canal and new harbor.

Corcoran Paralyzed.

WASHINGTON, June 6.—W. W. Corcoran, the aged millionaire philanthropist, was suddenly stricken with paralysis in his left arm and leg this afternoon and cannot now make use of them.

FIRST STREET SWITCHES.

Other Railroad Matters of Interest to the Public.

Yesterday afternoon, Mr. C. W. Smith, Vice-President of the Santa Fe road, Mr. F. T. Perris, Chief Engineer, Judge Brunson, Attorney for the road in Southern California, and Mayor Workman met in Judge Brunson's office and held a conference. The meeting was of a private nature but from Mayor Workman the following facts as to the conference were gleaned. The Mayor said: Mr. Smith was very reasonable in every respect. As to the switches on First street he said that he had the following proposition to make: The company would take up all switches on First street and build three main tracks to be used for the ingress and egress of trains. Automatic gates would be erected on both sides of the street and watchmen employed and travel would not be disturbed in the least. All switches are to be built on the grounds of the company near the river and will not interfere with the thoroughfare at all. Mr. Smith said that he had a great desire to work in harmony with the citizens of Los Angeles. The proposition of Mr. Smith will be presented to Mayor Workman and the Council committee formally to-day, and in the opinion of the Mayor it will be accepted.

THE SOUTHERN PACIFIC DEPOT.

The reporter ventured to ask Mr. Workman about the location of the new depot talked of by the Southern Pacific Company. The Mayor said that most assuredly the Southern Pacific Company would shortly erect a depot, but all reports as to its having purchased or bonded land were utterly false and unfounded. The company has in view several very available sites. A new place that has been offered the company is the Sisters' Orphan Asylum property, on the corner of Macy and Alameda streets. This tract contains nine acres, is very accessible, and is offered to the company for $125,000. It is understood that the property owners in the vicinity agree to donate $50,000 toward the purchase of this site, rightly thinking that it will materially increase the value of their property. The Southern Pacific could put in a switch on the east bank of the river, come down Mission street to Alameda and get to the grounds on its own track without crossing the Santa Fe track at all. Mayor Workman says that there is no probability of a union depot being built. Smith says that the Southern Pacific people won't agree to it and the Southern Pacific folks say that the Santa Fe won't agree. The Mayor says that the Southern Pacific has not asked for any subsidy in land or money for the erection of a depot. All it has asked is an assurance that when a site is selected the city will give the right of way over the streets to the new depot. He says that the idea of the Southern Pacific asking for a donation from the city is all folly.

A GENEROUS GIFT.

Hon. E. F. Spence Endows an Observatory.

Yesterday afternoon E. F. Spence, president of the Los Angeles National bank and ex-Mayor of this city, started on a tour of Europe. Mrs. Spence and Miss Maggie Spence and the three sons, Glen, George and Harry, accompany Mr. Spence. Before starting the gentleman wrote a letter to Rev. M. M. Bovard, president of the University of Southern California, in which he said that after an investigation of his financial matters he found that he could spare $50,000 in cash without serious damage. He desired Mr. Bovard to take charge of the sum and make it a nucleus for the formation of an observatory that will be an ornament to Southern California. This sum will purchase a magnificent telescope and provide for placing it in position. It is expected that public-spirited citizens will donate as much more to the establishment of this observatory, Mr. Spence does not suggest as to where the observatory will be located, but Southern California abounds in lofty and lovely peaks that seem to have been made for just such a purpose. Mr. Bovard has accepted the trust imposed upon him by Mr. Spence, and will take great interest in the matter. Truly, Hon. E. F. Spence can be called a liberal-minded, progressive citizen.

Baruch Spinoza.

Rev. Dr. Schreiber read a very interesting and instructive paper last night before the Historical Society of Southern California, which meets every first Monday of the month in the Council Chamber. The learned Rabbi reviewed the history of the Jews in Holland; dwelt at some length on the drastic differences distinguishing the so-called Portuguese from the German Jews, and gave a clear, lucid and concise sketch of the most striking features of the philosophical system of Baruch Spinoza, who, although making a scanty living by cutting of optical lenses, became the father of modern philosophy, and who, though cursed and reviled by the narrow minded and fanatical Portuguese Jews, became a milestone in the history of humanity and a blessing to mankind. The Doctor's essay was highly appreciated by the cultured audience.

Y. M. I.

SACRAMENTO, June 6.—The Controller has received orders for 145,000 pure wine stamps.

GENERAL NEWS.

Supposed Opinions of Cardinal Gibbons.

THE TYPOGRAPHICAL UNION.

Apache Hostiles Making Headway. Lawton on their Trail. Yellow Fever.

Associated Press Dispatches to the HERALD

NEW YORK, June 6.—The *Commercial Advertiser* says: Cardinal Gibbons refuses to say anything of his intended action on the labor question. Before giving his views to the public he will call to his counsel the eleven Archbishops of the American Catholic hierarchy, and then decisive steps will be taken which will leave no doubt of the church's attitude.

From a close companion of Cardinal Gibbons, a *Commercial Advertiser* reporter received some intimation regarding the probable character of the forthcoming Pronunciamento.

The right of the laboring men to combine for their common benefit will be conceded and all such lawful combinations will receive the blessings of the Church, but Catholics will be forbidden to take any part in boycotts or other infringement of the rights of citizens; and they will be forbidden to join any organization which practices intimidation, whether of a violent or other character. No Catholic will be permitted to become a member of any order which binds its members to secrecy or a blind obedience to the dictates of leaders.

CLOSE AFFINITY REQUIRED.

It will also be proposed that a closer relation be brought about between the Catholic members of labor organizations and the Catholic clergy. The object of this is to prevent Catholic laboring men from drifting off from the church, on account of their associations with Protestants, and to keep them from adopting theories which are antagonistic to the Roman church's dogma.

THE CARDINAL AND DR. M'GLYNN.

From the sources mentioned above it was also learned that Cardinal Gibbons' position in the McGlynn case is simply this: He likes Dr. McGlynn personally and does not condemn him for advocating general property in land, for that doctrine has not been declared heretical by the Pope, speaking ex cathedra; but he does blame Dr. McGlynn for rebelling against ecclesiastical superior, and for dabbling in politics to an extent unbecoming his priestly character.

Typographical Union.

BUFFALO, June 6.—The thirty-fifth annual convention of the International Typographical Union began its session here to-day. The forenoon was occupied by work of the Committee on Credentials. In the afternoon, President Jaimeson, of Nashville, delivered the annual address. He congratulated the convention on the progress made in the past year and the cheerful outlook for the future of the strike fund.

HOSTILES MAKING HEADWAY.

They are Reported at Calabasas Near the Line.

NOGALES, June 6.—A dispatch received here to-day states that seventeen Apache Indians have left the reservation and taken to the war-path. Why they left is unknown, but they seem to mean business. Last night they were near Calabasas, nine miles north of this place.

They have perpetrated no depredations, and the supposition is that they are making for the Sierra Madre mountains in Sonora. The commanding officer of the troops stationed here has been notified, and all due precautions have been taken.

It is stated that the Indians killed one man near Calabasas. The commander of the troops here has been ordered to take prompt steps to suppress them.

Lawton After the Indians.

NOGALES, A. T., June 6.—Four troops of cavalry started from Fort Huachuca this afternoon on a scouting expedition under the command of Captain Lawton. The troops will probably endeavor to head off the hostiles in the Patagonia mountains and prevent their getting into Old Mexico.

Yellow Fever.

WASHINGTON, June 6.—Every effort is being made by officers of the Marine Hospital Bureau to assist the local authorities in Key West in checking the spread of the yellow fever.

FIFTY THOUSAND RUINED.

And Fifty Thousand Acres of Wheat Destroyed.

VIENNA, June 6.—The distress in Hungary increases hourly. Numerous lives have been lost, and entire herds of cattle have been drowned at Mako. The flood has reached the Czanad country and fully 50,000 acres of wheat will soon be inundated. Czangard is submerged. It is calculated that 50,000 families have been ruined by the floods.

Earthquake Near Quebec.

QUEBEC, June 7.—News has been received of an earthquake which recently occurred in the vicinity of St. Louise, in the county of Listlet P. Q. The mountains in the second range of the Roch Des Aulnais were greatly disturbed. Masses of rock from forty to fifty feet square were dislodged and sent hurling into the valley below. Some of the largest trees in the forest were uprooted. No serious accidents are reported.

Fighting the Evictioners.

DUBLIN, June 7.—The first three families evicted from Bodyke to-day offered only a passive resistance. Cox, M. P., has persuaded them to refrain from throwing boiling water upon the police. In spite of that, however, the Sheriff has ordered Cox off the premises. When the police started to evict the fourth family a large quantity of boiling meal and filthy water was thrown down upon them.

Steamer Sunk by Collision.

LONDON, June 6.—A collision occurred in the channel between the British bark Hamburg, Capt. Caldwell, from New York, bound for Liverpool, and the British steamer Fern. The steamer was sunk and her captain and four seamen were drowned.

SCHOOL BONDS.

Localities and Cost of Buildings Needed.

It having been decided that it was necessary for the Board of Education to present to the Council data from which ordinances would be drawn by the City Attorney, the following paper was drawn up and presented representing the present needs of the Department:

To the City Council:

GENTLEMEN:—We represent to your body that the money for which we desire bonds issued for school purposes, should be expended as follows:

District No. 1, Highland View, has a one room building. There should be one room added, which will cost about $2500.

District No. 4, Brooklyn Heights, has a one room building unfit for use. A new four room building should be erected to cost about $8000. Grading, retaining wall, outbuilding will cost $2000.

District No. 7, Amelia street, has a four room, one story building. This should be raised and four rooms added for the first floor, which will cost about $10,000.

District No. 10, Castelar street, has a two story, four room building. This should be moved back and two rooms added to each story, making an eight room, two story building which will cost about 12,000.

District No. 13, Pearl street, has a one room building, unfit for use. There should be erected a two room building, cost about $4000; grading and out buildings, etc., $1000.

District No. 17, Montgomery street, has a two room building, unfit for use. There should be erected a four room building, which will cost about $9000.

District No. 19, San Pedro street, has a one-room building unfit for use. A four room building is needed, which will cost about $9000.

District No. 20, Fourth and Los Angeles, no building. An eight room building is needed, which will cost about $20,000.

District No. 21, Ninth street, site should be purchased, which will cost $5000; a four room building is needed, at a cost of about $10,000.

District No. 22, Diamond street, site to be purchased at a cost of about $3000; a two room building is needed, at a cost of $6000.

District No. 23, Wabash avenue, a site should be purchased near corner of Wabash avenue and Soto street, cost about $2000.

District No. 6, Railroad street, site must be sold and building moved on account of noise from machine shops, cost about $1000.

Most of the school-rooms now in use are 28x32x14 feet. It is recommended that all new rooms be constructed with these dimensions.

It is further recommended that all two-room buildings be so constructed that two more rooms may be added on the ground floor and the whole four raised and another story of four rooms built beneath, as occasion and necessity require. And that all four-room buildings be so constructed that they may be raised and another story of four rooms added beneath, when necessary.

A total of thirty-seven rooms is asked for, at an estimate cost of $104,500. This increase over what was formerly asked for is justified by an increase in the school population of more than 1400 children, as just shown by the Census Marshal's report, and by an increase of more than 300 children in the schools during the month of May just closed. It will cost $200 per room to furnish these thirty-seven rooms, or a total of $7400. There will be needed for repairs on old buildings, $9000.

As there is no money in the treasury for the above purposes, your body is hereby asked to call an election for the issuance of bonds for the amount of $120,000, the money to be expended as above set forth. There is need that action be taken promptly so that the buildings may be ready for occupancy not later than the middle of September next.

Signed, C. N. Earl, Chairman Building Committee; Anna S. Averill, Secretary of the Board of Education; W. M. Friesner, Superintendent City Schools.

ROSA GONZALEZ.

A Habeas Corpus Before Judge O'Melveny.

Yesterday morning Senora Villavlobos, obtained a writ of habeas corpus on behalf of her daughter Rose Gonzales, whom she claimed was detained as a prisoner in a house of ill fame on Upper Main street, kept by Maria Romero. The girl was taken before Judge O'Melveny and stated that she desired an attorney and time to get witnesses. She did not want ty go back to her home. She said: "My name is not Rose Gonzales. It is not Rose Villavlobos. My right name is Rosana Gomez. I found this out by going to the birth register of the Spanish Catholic Church. My mother is not the wife of Villavlobos—they were never married. They told me that Villavlobos was my father. I did not believe it. That is why I went to the church to see. About four months ago my reputed father violated my person. I told my mother about it, and she told me that she could do nothing. He repeated his offence many times, and treated me with great cruelty. I had to work hard. I was not provided with shoes or decent clothing. He would not allow me to speak to any person. He said he would kill me if I told any person. At last I told my mother that I would not stand it any longer. I told her that I wanted to go away. She asked me where I would go, and I said anywhere. Then she took me down to Maria Romero's. She is my aunt. It is not true that her house is a bad place. She makes her living by doing laundry work. I do not wish to go back home and undergo the treatment I have had there before. I was taught to read and write by Miss Boone, who lives on First street, in Brookfield's building. She taught me without charge." The case was continued until 9 o'clock this morning.

Judge John D. Bicknell's Illness.

Sunday evening Judge J. D. Bicknell was taken suddenly ill at his residence, No. 331 Temple street, and he continued to grow worse and his symptoms more alarming until yesterday afternoon, when he began to recover slightly, although his condition was still very dangerous. His brother, Dr. F. T. Bicknell, and Dr. Maynard, were in constant attendance until last night, when Dr. Maynard left. Dr. Bicknell remained at the bedside of his brother last night, and at a late hour Judge Bicknell was resting easier although he had been and still was unable to retain any food. His attack was very much like cholera and came upon him very suddenly.

FOREIGN.

Canada Censured for Excessive Duties.

KING AND QUEEN WILL ATTEND.

Loss of a Steamer in the Indian Ocean—Efforts to Check an Overflow in Hungary.

Associated Press Dispatches to the HERALD.

LONDON, June 6.—The *Standard* reads Canada a severe lesson for increasing her duties on iron and steel, which it says, is a selfish policy, and can only tend to sunder the Colonies from the mother country. "Increase was made, it says, on the hollow pretence of a desire to check the too rapid increase of trade with the United States in our favor.

WHAT CANADA DOES NOT WANT.

We decline the offer with thanks. We do not want our trade fostered at the expense of our neighbors, even if it could be done, but it cannot be done in that way. The interest of Canada is to foster trade with the United States by every means in its power. Free trade is on the Canadian side, and larger will it be in spite of the insane tariff of the United States, and the larger its trade with the United States is, the richer will Canadian people become, and more business will they do with all other countries.

Power of the Flood in Austria.

VIENNA, June 6.—The flood has reached Mako, Szegedin and Hile. There is great distress in these towns. Thousands of men are working with untiring energy to repair the dykes. ACCUSED OF BRIBERY.

Russia Highly Suspicious of the Sultan of Turkey.

CONSTANTINOPLE, June 7.—Nelidioff, in communicating his government's objections, hinted that if the Sultan ratified the convention, such action might cost him his throne. He also indirectly charged England with bribing the Grand Vizier with £600,000, and other palace officials with large amounts, in order to secure their approval of the convention. The Sultan, after his interview with Nelidioff, hurriedly summoned Sir Henry Drummond Wolff, special British Envoy, with reference to Egypt, and questioned him as to the truth of these charges. Sir Henry indignantly denied that he or his government had been guilty of bribery. Turkish officials who were said to have received bribes, he also warmly protested their innocence.

The Thistle Wins Again.

LONDON, June 6.—A brisk breeze was blowing this morning when the yachts started in the race at Dover around the course, 44 miles long. The Thistle led directly. She turned the pier within her own length, and was a quarter of a mile ahead of the other yachts at the end of two miles. When the Thistle had covered twenty-two miles, or half the length of the course, she led the Genesta by five minutes and forty-two seconds. At 4 P. M. the Thistle was the first boat over the finishing line. She crossed at 3:12.28

Another Find Beats Messmer's

Aggressive Russia.

DAILY HERALD.

THE ROZELLES.

Testimony Taken in the Case Yesterday.

BOTH HELD TO ANSWER.

The Cases Submitted Without Argument and the Accused Held in $2000 Bonds Each.

The examination of Mrs. Rozelle on a charge of throwing vitriol in the face of Charles P. Petrie, was continued yesterday morning at 11 o'clock. As in the previous occasions the court-room was crowded with spectators who listened attentively to all that was said in relation to the matter, and who took so great an interest as to forget themselves, and, in consequence, received a reprimand. The first witness called was Dr. Kierulff who testified that he had been called to treat Petrie on the 11th of May. Petrie appeared to have had something of an acid, burning nature in his face and in in his eyes. Witness stated that Petrie was still under his treatment, and that the sight had not been fully retored.

Cross-examined—Petrie did not tel him how the material had been placed on his face.

Dr. Ross testified that he had been the first physician who treated Petrie. His face was covered with vitriol or sulphuric acid and Dr. Ross worked over him for over an hour, and then turned him over to Dr. Orme. The acid had burned down the left side of the face aud had gone into the left eye. The scars on Petrie's face were the result of the sulphuric acid. The witness thought that the acid was poured on Petrie's face.

Cross-examined—If water had been thrown on Petrie's face immediately after the acid had been put on, it would have aggravated the effect.

A recess was then taken until 2 o'clock.

AFTERNOON SESSION.

The court room was filled with spectators again and shortly after 2 o'clock the State announced that it had closed.

Mr. Gage, attorney for the defense, then asked that Mr. Harrison, the prosecuting attorney be placed on the stand. Harrison was sworn, gave his residence, said he knew Petrie by sight and had several conversations with him in this case. Witness refused to give any admissions made to him by the prisoner and was excused.

R. E. McGregor took the stand, said he knew Petrie, saw him on the afternoon of May 11th. Witness was asked what Petrie said at that time. Objected to by the State. After a long argument the Court sustained the objection. Witness was asked: "Did you hear Petrie state to Dr. Ross that this lady, (Mrs. Rozelle), was a good woman, and for God's sake not to say anything about her?" Objected to by the State and objection sustained.

Mr. Gage said: "If we cannot get in any testimony, we will not offer any and will submit the case without argument. We have offered to show that everything Petrie said was untrue, which testimony was not permitted and therefore the case is submitted." Justice Austin then said: "Defendant is held to answer in the sum of $2000." Mr. Gage endeavored to have the bail reduced, but the Court decided to let it remain at $2000.

W. F. ROSELLE'S CASE.

This case was then called, and Mr. Gage stated that he and the District Attorney had stipulated as follows: "That testimony given in the case against Mrs. Rozelle shall stand as the testimony of these witnesses in the case of W. F. Rozelle, subject to the exceptions reserved by the defense."

Mr. McGregor was placed on the stand by the District Attorney and asked? "Did you have a conversation with W. F. Rozelle on the day the offense was committed?" Objected to by the defense, but objection overruled. Witness said: "Yes, I had two interviews with him; one on the 11th and one on the 12th. On the 11th Mr. Rozelle said: "Petrie came to live in this house about the same time I did, which was in December last, after he had seperated from his wife. About this time I went East and brought my wife back with me. When I arrived here the landlady, Mrs. Martin told me that she had rented the back room to Petrie. I objected to his presence in the house, and told Mrs. Martin that if Petrie and his wife were going to live there I would leave, because I knew of his wife's bad character. Mrs. Martin told me that he had left his wife in Sacramento and was going to get a divorce from her, and I let the matter drop. In the latter part of January, when he was coming up stairs he threw a magazine at my wife's door and said: "There is something to read." When I came up from the engine house I saw the paper, and on asking my wife where it came from she said that Petrie had thrown it. I told her who Petrie was, and said that if he did that again to let me know. About two weeks after this Petrie took sick, and my wife in going to get a pitcher of water, had to pass his door, which was open at the time and within three feet of the sink. Petrie asked my wife for a glass of water, and "what did he say, my dear?" asked Rozell of his wife.

"Well," said Mrs. Rozelle, continuing her husband's story, "when I handed him the water he said we were great people (meaning Mrs. Martin and myself) for not coming near him or waiting on him. I said, 'what do you think I am, or what do you take me for?' and walked out of the room insulted. When my husband came home I told him what Petrie had said."

"Yes," said Mr. Rozelle, "and I told her I would fix him. I'll get something for you to use when he insults you again. I then went to a drug store," continued Rozelle, " and got a vial of vitriol and told her how to use it. Be sure and keep your door closed and if he ever insults you again or comes in your room throw it in his face I said. The second time that my wife ever spoke to Petrie was when he came in the room and she threw the vitriol. About 3 o'clock Wednesday I went up town for a walk and when I came back my wife was gone, and I mistrusted something. My wife will now tell you why she threw vitriol."

Mrs. Rozelle then said: "After my husband left I locked the door and took a nap on the bed with my clothes on. When I awoke it was close on to dinner time, about 4:15 o'clock, I think. I got up and combed my hair and then went and got a pitcher of water. I did not lock the door on my return. I was putting some powder on my face, and while looking in the mirror I imagined I saw the door opened. Turning around I saw Petrie in the room. I asked him what he wanted, and he said 'nothing.' I said, 'get out of here, you rascal.' He then grabbed me (I was standing in the middle of the floor at the time) and pushed me on the bed. I fought with him and got away. I thought of the vitriol; that was my whole thought; and going quickly to the bureau where it was standing, I snatched it up and threw it in his face. He then reached for the door to go out, but being blinded, put his hands on the panel of the door, and that is how all the marks are there. He said nothing. I was very much excited and ran down stairs behind Petrie, but had nothing in my hands. I then ran up stairs again, and kept running up and down stairs three or four times. I saw Petrie run to the front gate once, while I was on the porch. He looked at me but said nothing. Then Mr. Gibson, who is a brother of Mrs. Martin, the proprietor of the house, took Petrie around in the back yard where I heard he washed his face with water. I was not undressed.

Mr. Rozelle then spoke of Petrie and Petrie's wife in a very ill manner. He also said that he had told different parties that if Petrie ever insulted his wife again he would be sorry.

Mr. Gibson was placed on the stand and said: "On the day of the vitriol throwing I had a conversation with Rozelle. He said, 'if my wife has used the stuff as I told her to and the way I fixed it, Petrie will not insult another woman.' He said, 'I hope she has blinded him for life.'"

G. Hiler was called and testified that he kept a cigar store. He said: "Rozelle told me the story in regard to this case about two hours after it happened. Rozelle said Petrie came to 129 College street and took rooms. He made improper advances towards Mrs. Rozelle and he had had his wife fix him. He had contemplated the business for about two months because Petrie had interfered with his family relations. He got vitriol and showed his wife how to use it. He poured vitriol in a cup, poured a little on a rag which burned up, and then poured it back into the bottle. He got it from Juenger's drug store. He said he was away when it happened and found it out when he got home. Rozelle stated that when his wife first came from the east he objected to introducing her to Petrie but Petrie determined to force his acquaintance and threw a paper to Mrs. Rozelle. He said to his wife, tell the gentleman I can buy you papers, etc., and he had better keep on his own side of the hedge. His wife tried to shun Petrie that's the reason he got the vitriol. He got it for his wife to use; had it for two months. Rozelle said that was to be the way for his wife to get revenge instead of him (Rozelle), taking it. He said that his wife told him that Petrie had been in her room.

Wm. H. Juenger, druggist, said he had seen Mr. Rozelle but didn't know the woman. He didn't know whether Rozelle ever bought vitriol or drugs from his store or not. He had been there once or twice.

Mrs. Joseph Mullally was sworn. She said she had known Mrs. Rozelle; saw her on the day the day the deed was done; she came to Mrs. Mullally's house and stayed fifteen or twenty minutes; "I went back with her to her room; Rozelle was there; he said that he had prepared the vitriol in the cup for his wife to use if any one should insult her; she showed me the bottle; she said Petrie had insulted her and she had thrown the vitriol; she said that she (Mrs. Rozelle) was powdering her face; the door was ajar and Petrie came in; he tried to kiss her; she tought till she got to the washstand, where the cup of vitriol was, when she snatched it up and threw it on him. Rozelle said he had something for his wife to use in case she got burnt. Mrs. Rozelle said that Petrie caught her and tried to throw her on the bed."

The case was submitted without argument and Justice Austin held Rozelle in $2000 bonds. Bonds were not furnished and both parties went back to jail.

Mr. McGregor, the witness in the above case, is connected with the HERALD and made the report of the Rozelle vitriol case when it occurred. He was the only reporter who had authentic interviews with the Rozelles, and hence he was called as a witness. As Henry Gage remarked in court yesterday, any thing that appears in the HERALD can be taken as true and correct.

The Greatest Bargain
—IN—
Northern California.

That magnificent Estate known as

The Vallejo
White Sulphur Springs
IN SOLANO COUNTY.

164 ACRES OF SPLENDID LAND, together with the hotel and cottages, bath-house, stables, gas-house and other buildings. There has been expended, at a low estimate, upward of $140,000 on the property. An artificial lake and island, with bridge, is one of the beautiful attractions; around the lake are summer houses and pretty shade trees, where boats can sail around and fine trout fishing can be had; there is a small vineyard, grape arbors, fountains covered with ivy, beautiful walks, pretty groves of trees, a park summer houses scattered over the grounds, a wilderness of flowers and banks of roses along the driveway; the orange trees, now in full bloom, and which bear bountifully, attest how favored this place is. It is the most lovely spot in California, and the place should be opened up as a place of resort to the public, or owned by a private club. The attention of capitalists is called to this property. It can be made a splendid paying investment. It is offered at a price far below its value. The buildings alone are worth certainly $40,000, at a fair estimate, not counting in the improvements made, or the land. The furniture, etc., also goes with the property. All the rooms in the hotel and cottages are furnished and carpeted. There is a large dining-room in the hotel, reading-room, billiard-room and smoking-room in one of the buildings.

The Springs are famous and well known throughout the State. The Sulphur Springs are a great attraction, and these alone have great value. As the property is a partnership, and the owners reside in different States, to make a sale they have decided to sell the property to close out the divided ownership.

For a company or private club to take hold of this fine property there is a fortune in it. The tract outside the hotel grounds could be divided into building lots, as there are hundreds of business men who would like to have a summer residence for their families near such a pretty and attractive spot, and being so near to San Francisco and Oakland, taking less than two hours' time to reach the Springs. We are certainly going to have a great boom in Northern California, the same as our friends are now enjoying in the southern portion of the State, and affairs are shaping themselves to that end. It is almost on us, and then properties will so increase in value that it will astonish us all. This fine estate can now be purchased at the exceeding low price of

$32,500.

Railroad Depot Sites.

There is a great deal of speculation just now as to what will be the result of the visit here of Senator Stanford and Mr. Towne. They both recognized the necessity of securing a site for another Southern Pacific depot, in order to relieve the pressure upon the present depot, and settled down to the view that by establishing a depot at which the local trains could be accommodated their immense business could be satisfactorily transacted. There have been all sorts of rumors with reference to the sites already said to have been selected for this purpose. One of these is said to be a portion of the Wolfskill tract, between San Pedro and Alameda streets. But we have reason to believe that there is nothing in this. On the other hand, we are assured that negotiations have been commenced by agents of the company to purchase the Sisters' tract on Alameda and Macy streets. This tract contains nine acres, and it would be an excellent location for local traffic. It is central, and near enough to their present depot to facilitate business. The upper depot should be reserved solely for through trains and for freight delivery. With the local depot on the Orphan Asylum tract, and the rails removed from Alameda street to the river side, the objection to running trains through a populous street of the city would be removed. The arrival here of Mr. C. W. Smith, the Vice-President of the Atchison road has, we understand, resulted in a satisfactory arrangement of the difficulty on First street. The terms of the adjustment are that the company will use no switch tracks on the street, but will run three straight tracks, sixty feet apart, across it to accommodate incoming and outgoing trains. This is perhaps an unavoidable necessity of the road; but it must be admitted that the danger to vehicles in crossing sixty feet of tracks will be great. The company propose to place gates at each side of their roadway, and this will be a measure of safety Still, that will not prevent frequent interruptions to street travel. It seems to us that the best way to overcome the obstruction and to ensure safety would be to build a bridge across the tracks. Indeed, wherever railroads are intersected by a cross street in the city, they should be traversed by an elevated bridgeway. Los Angeles is growing so rapidly that it is impossible to designate any street that may not in a very short space of time become so populous as to render its use for railroad trains dangerous. But we will gradually settle down to the establishment of a system by which certain thoroughfares will be set aside altogether for the accommodation of railroads, and then take all the precautions possible to prevent accidents.

FRESNO and Tulare counties are just now enjoying an energetic phase of development which we decline to call by the name of boom. That word will do very well for the little artificial things which are heralded when a Chamber of Commerce or Board of Trade is organized in Milpitas or Red Dog, and a determined effort is being made to suppress or divide up the Pactolean streams which are pouring into more favored localities from genuine and successful schemes of developement. It is really hard to exaggerate the progress which is now being witnessed in both counties named. They are settling up with lightning rapidity, and it is hard to award the precedence to either. Perhaps their respective claims would be most justly discriminated by saying that, up to date, Fresno has made the most advances in vineyard planting and horticulture, and Tulare in agriculture proper. While the city of Fresno is perhaps marked out as the great metropolis of the San Joaquin Valley, town growth is a very marked feature of Tulare county. Tulare City has made and is making of late rapid strides, and is being beautified by a fine class of buildings. Wealthy San Franciscans are investing their money there, amongst the rest being Ex-Mayor Bryant, who has lately erected a handsome block in Tulare, and who has bought outright the townsites of Goshen and Alila. At both of these points he is building a handsome hotel. To show how the splendid farming lands of Tulare county are appreciating in value since their merits have become known, one case in point will serve. Mr. Bryant bought extensive tracts of these lands from the railway company for $2.50 an acre, paying part of the purchase money down, with five years in which to pay the remainder, the deferred payments carrying seven per cent. interest. The other day he sold a number of sections at $25 an acre to parties in Boston. This, though a large, is not a disproportionate enhancement. Last year Tulare county was the banner grain county of this State, and even in the present comparatively dry year there are excellent crops on extensive stretches of unirrigated lands. One great beauty of that whole region is that water can be struck at slight depths and at comparatively trifling cost, both surface and artesian water being abundant and easily available.

MR. FAIRCHILD, United States Treasurer, thinks that the premium upon unmatured bonds is now high enough, without the Government going into the market to buy them, and thus send it up higher. He says that the excess of revenue over expenditure next year will be one hundred millions, and proposes to relieve the pressure that this will cause by anticipating one year's interest on the outstanding bonds. He is authorized to buy up one year's coupons in advance by a law passed in 1886, and he says by doing so he can send back into general circulation forty millions of the one hundred millions surplus that will come into the Treasury during the next fiscal year. But the relief will only be partial. The surplus in the Treasury now is about two hundred and fifty millons. If only sixty millions a year should be added to this amount during the four years that will elapse before the 4½ per cents become due, that will swell the surplus to nearly five hundred millions. But it will be actually very much more, for the income of the Government is increasing in a far greater ratio than the expenditure. Hence, we may count upon a surplus of about six hundred millions before the year 1891 will enable us to take up the $250,000,000 of bonds that will then be redeemable. Can the country stand the strain of having nearly one-half of its entire circulation shut up in the vaults of the Treasury? It is preposterous to suppose that such a stringency can long exist without a commercial collapse. The next Congress will be called upon to solve a most difficult problem, and it will have no option but to materially reduce the import duties and modify the internal revenue tax. That is the only safe way out of the difficulty.

HON. E. F. SPENCE and family started on a trip to Europe yesterday. Before leaving Mr. Spence performed one of the most public-spirited acts that we have ever had to record of any Southern Californian. He drew a check for $50,000 to start a fund to erect an observatory at some suitable point in this section of the State. The money is placed in the hands of Rev. M. M. Bovard, President of the University of Southern California, who is authorized to use it in furtherance of the great work contemplated by the donor. This munificent gift will doubtless be supplemented by other generous contributions for the same object. We have many persons of wealth here now who will take a lively interest in a project of this importance to Southern California; and now that Mr. Spence has laid so handsome a basis upon which to build a fund adequate to the successful carrying out of the great project, they will doubtless be glad to identify themselves with it in a substantial manner. Mr. Spence and family would have carried with them, in any event, the good-wishes of our people on the occasion of their departure upon a foreign tour; but this graceful act of public generosity will bring to them a kindly interest in their welfare from every resident of Southern California.

THE dispatches report the death of Al Sieber, the great Indian scout of the southwest, shot by an Indian, whom he afterwards killed. If Sieber is dead the government loses a valuable man's services. He was the chief scout of Generals Howard, Crook, Miles and others, and the most expert and courageous of any known in the American army. When Sieber was on a trail of the Apaches, or if not on any trail, he could always tell when within three miles of their vicinity. He had an acuteness of the sense of smell equal to a bloodhound. In all Indian methods he was as expert as any Apache that ever took the warpath.

MR. WALTER S. MAXWELL, one of our most prominent business men, will leave for a trip East and to Europe to-day. Mr. Maxwell will spend some time in Liverpool examining several iron steamships that have been offered him. He will select one, and purchase it to run between San Pedro and the coal ports of Puget Sound. He will thus be enabled to furnish coal at the lowest possible rate, and confer quite a benefit upon consumers. Mr. Maxwell will probably be gone all summer. He will visit France, Germany, Italy and Switzerland, and take in all the sights of the great capitals. The HERALD throws out to him a friendly *envoi*.

The One Chance of the Season.

Shakespeare says every one is given one chance to a fortune. The Providencia Land and Water Company propose to give this chance to those who have not had that opportunity, by selling a limited number of 40-acre tracts of choice lands for the small sum of $100 per acre, providing an agreement is made to improve them in a reasonable time.

QUALITY—These lands are the finest vineyard and deciduous fruit land in the State, and are actually worth $500 per acre. Forty acres of these lands planted in vines or raisin grapes will yield an annual income of $10,000 in five years. When the company placed their lots in Burbank on the market at the low price of $.00 each, the shrewd operators in real estate bought largely, and they are now selling at $900 per lot. We have been importuned so much about these lands that the company have concluded to sell a limited amount at the above prices. When these lands are sold the price on the remaining tracts will be $200. First come first served. Do not put off until it is too late, as twenty-five purchasers will take the entire quantity, and delays are dangerous. For further particulars enquire at the office, No. 12 South Spring street.

A Total Eclipse

Of all other medicines by Dr. R. V. Pierce's "Golden Medical Discovery" is approaching. Unrivalled in bilious disorders, impure blood, and consumption, which is scrofulous disease of the lungs.

Delicate Diseases

Of either sex, however induced, promptly, thoroughly and permanently cured. Send 10 cents in stamps for large illustrated treatise. World's Dispensary Medical Association, 663 Main street, Buffalo, N. Y.

Years Teach More than Books.

Among other valuable lessons imparted by this teacher is the fact that for a very long time Dr. Pierce's "Golden Medical Discovery" has been the prince of liver correctives and blood purifiers, being the household physician of the poor man, and the able consulting physician to the rich patient, and praised by all for its magnificent service and efficacy in all diseases of a chronic nature, as malarial poisoning, ailments of the respiratory and digestive systems, liver disease and in all cases where the use of an alterative remedy is indicated.

For Neat, Pleasant and Airy Rooms,

With all modern conveniences, first-class throughout and near business center of city, go to the St. Nicholas, on Fort street, north of Temple.

Special Announcement.

The first advance in the price of Ivanhoe lots was made June 1st as per advertisement for several months. For various good reasons, some of the lots are left at the original prices for another month. But most of them have been advanced 20 to 50 per cent. Even at advanced prices it is the best property offered for the money anywhere around Los Angeles; and buyers should choose their lots before the next advance, which will be made in July. The sale of lots in May was larger than in any previous month, and the end of June will find most of the lots sold. All who see Ivanhoe agree that it is the best property for the least money that can be found. The water system and the dummy road will both be ready by July, and many houses will be built in the next two months. If you want a first-class large lot for a small sum of money, come at once. Byram & Poindexter, 27 West First street.

For a hygienic and invigorating beverage use Ghirardelli's solub cocoa.

Full particulars at the office, 30 South Spring street.

The New Town

Of Broad Acres, where lots are selling so rapidly, at $50, might well be called the Hub. It is just eight miles from Los Angeles, La Ballona, San Pedro, Long Beach, and three and a half miles from Compton. A very desirable location. Cool in summer, and warm in winter. Strawberries are raised the year round.

At the Azusa

Thursday next, the Barclay & Hunt ranch of 150 acres of beautiful land, finely situated, either for homes or for speculation, and having a full water right from the San Gabriel river, will be sold at auction. Do not fail to attend this sale, if you want a few choice acres that will quadruple in value during the next four months. Speculators will please notice that the entire tract will first be offered. And it will prove a bonanza to the buyer. Do not forget the date, Thursday, June 9th, on the grounds. Sale will commence at 12 o'clock. Matlock, Newton & Matlock, auctioneers. DYSPEPSIA.

Sedentary habits, mental worry, nervous excitement, excess or imprudence in eating or drinking, and various other causes, induce Constipation followed by general derangement of the liver, kidneys, and stomach, in which the disorder of each organ increases the infirmity of the others.

The immediate results are Loss of Appetite, Nausea, Foul Breath, Heartburn, Flatulence, Dizziness, Sick Headaches, failure of physical and mental vigor, distressing sense of weight and fullness in the stomach, and increased Costiveness, all of which are known under one head as **Dyspepsia.**

In every instance where this disease does not originate from scrofulous taint in the blood, AYER'S PILLS may be confidently relied upon to effect a cure. Those cases not amenable to the curative influence of AYER'S PILLS alone will certainly yield if the PILLS are aided by the powerful blood-purifying properties of AYER'S SARSAPARILLA.

Dyspeptics should know that the longer treatment of their malady is postponed, the more difficult of cure it becomes.

Ayer's Pills

Never fail to relieve the bowels and promote their healthful and regular action, and thus cure **Dyspepsia.** Temporary palliatives all do permanent harm. The fitful activity into which the enfeebled stomach is spurred by "bitters," and alcoholic stimulants, is inevitably followed by reaction that leaves the organ weaker than before.

"**Costiveness,** induced by my sedentary habits of life, became chronic; AYER'S PILLS afforded me speedy relief. Their occasional use has since kept me all right." HERMANN BRINGHOFF, *Newark, N. J.*

"I was induced to try AYER'S PILLS as a remedy for **Indigestion, Constipation,** and **Headache,** from which I had long been a sufferer. I found their action easy, and obtained prompt relief. They have benefited me more than all the medicines ever before tried." M. V. WATSON, *152 State St., Chicago, Ill.*

"They have entirely corrected the costive habit, and vastly improved my general health." REV. FRANCIS B. HARLOWE, *Atlanta, Ga.*

"The most effective and the easiest physic I have ever found. One dose will quickly move my bowels and free my head from pain." W. L. PAGE, *Richmond, Va.*

"A sufferer from **Liver Complaint, Dyspepsia,** and **Neuralgia** for the last twenty years, AYER'S PILLS have benefited me more than any medicine I have ever taken." P. R. ROGERS, *Needmore, Brown Co., Ind.*

"For **Dyspepsia** they are invaluable." J. T. HAYES, *Mexia, Texas.*

INSECTICIDE.

We beg to call your attention to an article we are manufacturing for the purpose of eradicating and destroying the

Scale Bug, Harvest Flies, Tree Hoppers, Plant Lice, Etc.

It has been fully tested by the Agricultural Department of the State University, and pronounced a success, the endorsement of which we append. It is put up in convenient forms for use. The chemicals employed in same will not hurt the most tender bush, as has been fully demonstrated. It is put up in liquid form ready for use in barrels and 5-gallon cans and in paste form in 2 and 5-lb. cans and barrels, which must be diluted before using: therefore, we recommend the liquid form as being the best for use.

[Copy of letter received from the University of California, College of Agriculture, Berkeley, dated Dec. 4th, 1886.]

J. N. Knowles, Esq., Manager Arctic Oil Works, San Francisco:

Dear Sir—We have lately tested the Insecticide preparation of Whale Oil Soap sent by you to us, and have found it to be very effectual against the Scale infesting Orange and Bay Trees; also against the Thrips. From our previous experience with a similar composition, I think it will be found fully effectual against any small Insect Pests not specially protected like some of the armored Scales, and against which any Wash short of strong lye cannot be used. Respectfully, E. W. HILGARD, Professor State University.

We ask you to give this preparation a thorough test, feeling confident that it will do all we claim for it. It will cost but a small amount to save your fruit trees and flower plants from the deadly insect. Give it a trial and be convinced. Yours truly,

Disease and Death

Force their way into many a household that might be protected from their inroads, by the simple precaution of keeping in the house that benign family medicine and safeguard of health, Hostetter's Stomach Bitters. Particularly where there are children, should it be kept on hand, as a prompt remedy for infantile complaints, in their outset easily conquerable, but which, if allowed to engraft themselves on the delicate childish organism, are not easily dislodged, and speedily work grievous mischief. Irregularity of the bowels, indigestion and biliousness, are ailments of common occurrence in the household. Children, living in malarious regions, are more liable to be attacked with chills and fever than adults, and the ravages of that fell disease in their system are speedier and more serious. In remote localities, far from professional aid, it is especially desirable.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children: 25 cents; at all druggists. J. J. Mack & Co. proprietors, San Francisco.

Startling but True.

WILLS POINT, Texas, December 1, 1885.

After suffering for more than three years with disease of the throat and lungs, I got so low last spring I was entirely unable to do anything, and my cough was so bad I scarcely slept any at night. My Druggist, Mr. H. F. Goodnight, sent me a trial bottle of DR. BOSANKO'S COUGH AND LUNG SYRUP. I found relief, and after using six $1.00 bottles, I was entirely cured. J. M. WELDEN. Dr. Henley's Remedy for Women and Children.

Although Celery, Beef and Iron is patronized by all persons, it is particularly beneficial to women and children, as it has been found to be of the greatest benefit in many of the peculiar diseases incident to them, in nervous troubles of women, and in the many infantile complaints it is of great service. There is always a certain amount of distrust attending any new preparation that is placed before the public, as so many "sure cures" have proved a disappointment; but with Celery, Beef and Iron, its medicinal powers can only be shown in its use. For sale by all druggists.

NOTICE.

The LOS ANGELES CITY WATER Co. will strictly enforce the following rule: The hours for sprinkling are between 6 and 8 o'clock A. M. and 6 and 8 o'clock P. M. DAILY HERALD.

THE TURN FEST.

South California Bezirk Fest at San Diego.

IT PROVES A GRAND SUCCESS.

Enthusiastic Welcome of Los Angeles Turners, by the Citizens of San Diego.

One of the most significant signs of the times is the organization of the Bezirk (or district) Turn Fest of Southern California, of which City Councilman J. Kuhrts, of Los Angeles, is president. Heretofore the members of the various Turner societies of South California have been united with a Bezirk that embraced the whole State, and found it very difficult to attend the annual meetings, more than 500 miles away. As a consequence but few of the Turners of South California ever attended these annual meetings, which are of great interest to the cause of Turner progress.

Few people have an accurate idea of the operations of the society of Turners. It is a great educational plan, and aims to educate a man for the various pursuits of life in a thorough manner. Every member must be taught to read and write and follow some means of livelihood. He must learn to sing, to practice with foils for self defense, the use of arms and the most perfect development of the physical frame that is possible. As a consequence all Turners are well educated and well trained for the activities of life, especially for those in all the professions of life that require physical quickness, vigor and endurance. The peculiar qualities of a Turner is very noticeable in an army. Unless wounded there are few of them in the soldier's hospital. They are invaluable as scouts and cavalrymen, are expert infantrymen and handy in making fortifications. In all the arts and sciences of peace they are no less valuable.

The writer has attended meetings of Turners and Bezirk Turn Fests for more than a generation, and can vouch for the value of their discipline and the value of them as citizens in all the walks of life.

THE NEW BEZIRK.

The Bezirk of South California embraces the counties of what is known as Southern California, and the meeting at San Diego is the first annual meeting of the Turners of the new district. The meeting was called for June 4th and 5th and 6th, but owing to a delay of trains the full programme of the 4th could not be carried out completely. The northern delegates arrived at 9:15 P. M. and were met by the San Diego Turn Verein with the Phœnix band and drum corps, and escorted beneath evergreen arches, illuminated by electric lights and fireworks, to Turner Hall, where the President of the society at San Diego made an address of welcome and was followed by the singing section singing a greeting song in an admirable manner, to which President Kuhrts responded in a very happy vein and was greeted by a storm of Gut Heil. The hall was beautifully decorated within and without, in a lavish and artistic manner.

Over Fifth street, at the junction of F street, was suspended a picture of Columbia and on the reverse side of the panel was the inscription: "Columbia, great Republic! thou art blest when empires drop and monarchs sink to rest."

The City Council was present and in response to the toasts to that body an excellent speech was made by Mr. J. A. McRae, one of its honored members. The vocal exercises were directed by Professor Fuhrberg, Zerk of the Turn Wert of Los Angeles. Hans Forster, President of the Turn Verein Germania of Los Angeles, made some interesting remarks, as did Mr. Sue, of London. A large number of ladies were present and when the great silk-embroidered banner trimmed with gold was brought forth, a gem of art and industry which their own hands had fashioned to present to the San Diego Turners, their eyes glistened with tears as President Forster mounted the rostrum, and as its shining folds were spread delivered a most impassioned address to them in the German language, giving them the thanks of the society, complimenting them on the beauty of the flag, as it represented the beauty of their great, rich, warm hearts, and promising to preserve it from all that was base, and to wave it ever in the cause of human improvement and the sacred protection of wife, mother, sister and home. No translation of his remarks would convey their real spirit.

Among those present were S. Statter, County and City Treasurer, and M. D. Hamilton, City Clerk, late candidate for member of State Board of Equalization.

The visitors from Los Angeles consisted of President Jacob Kuhrts, President Hans Forster, of T. V. Germania of L. A., Paul Richter, Miss E. Kuhrts, G. Kuhrts, E. Brunner, R. Weyse, Mrs. H. Forster, W. Forster, H. Ewald, C. Bruttig and wife, P. Bruttig, E. J. Pister, D. W. Anderson, I. F. Allen, Hon. H. T. Hazard, A. W. Mahlstedt and wife, L. Schwartz, I. G. Gnase and wife, I. Huber and wife, Andy Lindenfeldt, Mr. R. Schinn, C. Hartruech, E Glockner, F. Korn and others whose names failed of capture.

The festivities broke up at midnight, only to be renewed Sunday morning at 8 o'clock by a grand parade through the principal streets of the city to Union Park, where, after a social interchange of sentiment, the following judges were appointed to award prizes for the best performers of manly sports.

NAMES OF JUDGES.

Los Angeles—R. Weyse, A. Fuhrberg, H. Forster, Emil Harris.

Santa Ana—J. Glockner.

San Diego—P. Doldt, A. Ecker, Fred Gessler and John Lutz.

President Kuhrts then led the way to the Pavilion, where a large audience was gathered, and delivered a carefully prepared address devoted to the interests of the new Bezirk of South California. He was frequently applauded with tremendous enthusiasm.

After the close of his address the robust and benevolent Herr Schnavels, of San Jose, arose and while paying a compliment to the manly members, expressed sorrow and disappointment at the formation of a separate Bezirk, and hoped they would come back and remain in the old fold, which had the whole State for a Bezirk. His sentiments did not meet with popular favor, and the Turners all cheered for the new Bezirk and the new State of South California.

At the conclusion of the exercises in the pavilion the following Turners entered the arena in the shade of the park as competitors for prizes:

NAMES OF CONTESTANTS.

P. Peipenbrink, Paul Flaunner, W. Paul, F. Jaenicher, W. Breer, Louis Tag, H. Axt, Louis Hertzog, J. Hanneman, Henry Hahn, T. Dohiman, E. Longa, H. Hertzog, Karl Gessler, R Khoellin, Ed. Meyer, G. M. Dietz, Gus Freidrich, H. Heiman, C. Sammann, William Paul, George Schrader, P. Fuchs, twenty-four in all.

The feats of these young men were of the most admirable perfection, and their friends and relatives were profound in their admiration. Their feats showed a perfection of physical strength and culture that hundreds of thousands of other American citizens ought to possess. This physical education is a fortune to the young men who have attained it.

After the gymnastic exercises the afternoon closed with a concert and popular games of sport. All was decorous and full of interest. The evening exercises will appear later.

Hansen's Suicide.

James Hansen, a native of Denmark, 45 years of age, committed suicide at Santa Monica yesterday. His wife left him about a year ago and shortly after he began drinking quite heavily, and kept it up until the time of his death. About a week ago he went to Santa Monica and stopped at the Central hotel. On Sunday he purchased a quantity of strychnine at a drug store with which he said he wanted to kill some rats. On Sunday evening he retired, and as he did not turn up yesterday morning his landlady became alarmed and opened his door. His light was still burning, but he was dead in his bed. Coroner Meredith held an inquest on the body yesterday, and the jury found a verdict in accordance with the facts, having found a large part of the strychnine gone.

FINANCE AND TRADE.

A Review of the Day's Transactions.

NEW YORK, June 6.—The new week on Stock Exchange opened with a quiet and rather a listless market, in which half a dozen stocks completely monopolized the interest, and two of these made up the temper of the speculation at different periods of the day. The announcement of a proposed extra issue of stock by the St. Paul, coming as it did on the favorable bank statement of Saturday, created a marked depression in granger stocks, in which the general list sympathized to a limited extent. Later in the day there was a sudden spurt in Western Union, based upon widespread rumors that a dividend would be shortly declared upon that stock. Under this stimulus a better feeling became noticeable throughout the entire list. There was an extensive covering of shorts in Pacific Mail throughout the afternoon, and the stock materially advanced. The improvement in the market was also aided late in the day by a reduction in rates of Sterling Exchange. The remainder of the list was quiet and without feature, fluctuations being extremely narrow except in a few specialties. Final quotations show irregular changes in Western Union; U. P., 1¼; Tennessee Coal and Iron is down 1½; St. Paul 1¼, and Jersey Central 1.

British Grain Review

LONDON, June 6.—The Mark Lane Express in its weekly review of the British grain trade, says: The copious rainfall of Thursday and Friday, and the general good weather following, have improved the grain outlook. This aggregate benefit is immense. Supplies of native wheat locally continue variable in the markets, selling for less than before the holidays. Sales of English wheat during the year were 48,857 quarters at 35s per quarter, against 49,763 quarters at 32s per quarter during a corresponding week last year. Flour was steady. The demand decreased. Foreign wheat is without a feature, and the market showed a weaker tendency. Ten cargoes arrived off the coast, eight were consumed and two remained on sale, one being an Oregon cargo for which 38s is asked. White wheats were almost entirely in the hands of the Liverpool clique to day.

Wheat was slow and unchanged. Flour was steady. Round maize was weaker. American mixed was scarce and firm. Barleys were slow and unchanged. Oats were dull. Linseed was dearer.

Petroleum.

NEW YORK, June 6—The Petroleum market was dull, opening at 63c¾; highest 63⅞c; lowest, 62⅝c; closing at 62⅞. Sales, 657,000 barrels.

DAILY HERALD.

CITY COUNCIL.

Approaches to the Buena Vista Street Bridge.

FIRST STREET CROSSING.

An Ordinance to be Drawn for $150,000 Bonds for School Purposes.

The City Council met yesterday afternoon, President Breed in the chair and Messrs. Goss, Stearns, Hyans, Jones, Johnson, Gibbs, Lovell, Perry, Collins, Willard, Hiller present. After the reading and adoption of the minutes, the following business was transacted:

Mayor Workman sent in a communication as follows: "The citizens of East Los Angeles and vicinity are complaining of the great delay in filling the east approaches of the Buena Vista street bridge. To avoid railroad crossing and accidents this bridge should be placed in a condition for travel as soon as possible. I would, therefore, recommend your honorable body to let a contract for said filling at once, or adopt some other method by which said work can be pushed faster than it is now being done." Referred to the Board of Public Works, with power to act. Mr. Goss said that the work was being done by the chain gang, and by adding more men it could be finished this week. The men could be taken off from the street. Mr. Jones objected to this for the streets were in bad enough condition now from neglect. He said that the companies laying gas and water pipes were tearing up the streets, and they were leaving the streets in a horrible condition, which ought not to be permitted. Something ought to be done in this matter. If an example were made under the law which exists it would be a warning. He thought the Superintendent of Public streets should be instructed to prosecute.

Mr. Goss said that an ordinance ought to be passed compelling the companies to put the streets in as good order as they were before, and suggested that they be made to fill up the excavations with sand.

On motion of Mr. Jones, the matter was referred to the City Attorney.

The Fire Commissioners referred to the City Council the communication from the agent of the Richmond Fire Alarm Company, relating to the system and stating that he could not see why it should not be be accepted, and that he knew of no way to improve it. Mayor Workman stated that the Fire Commissioners were not satisfied with the system and the matter had been left with the Council and should be referred to the City Attorney. Mr. Breed took the floor and said that the Chief Engineer was satisfied that it would not work and he was satisfied that it was not the proper thing for this city. There was a contract that the system should work correctly for one year before paid for, and he moved that the matter be referred to the City Attorney. So ordered.

Neuralgia cured by St. Jacobs Oil.—C. H. Rossiter, Philadelphia, Pa.

Bread Without Yeast.

It is a well known fact that bread made with yeast, if eaten before it becomes stale, ferments again in the stomach, producing indigestion and numerous other complaints. Bread raised with Royal Baking Powder, instead of yeast, is entirely without this defect; but, on the contrary, is one of the most effectual preventives of indigestion or dyspepsia. By the use of the Royal Baking Powder the saccharine properties of the flour, which are destroyed by fermentation with yeast, are preserved and the bread is made more nutritious. Ten per cent more bread is baked—because of this saving—from the same quantity of flour.

The Royal Baking Powder will also make sweet, white bread from an inferior quality of flour, a power possessed by no other leavening agent. Thus much flour that is dark in color or from other cause is considered below the finer grades, and therefore much cheaper, can be utilized and turned into a perfectly sweet and wholesome bread. Nor can bitter bread ever result from the use of too much, or more than the required quantity of Royal Baking Powder, as, whether used in small or large quantities, its proportions are in such exact equivalents that they always neutralize each other. Bread made in this way does not require mixing over night, but may be prepared ready for the oven in a few minutes, an advantage that will be readily appreciated by every housekeeper.

The Illustrated Herald.

A full supply of the ANNUAL HERALDS re now on hand. Newsdealers and others should avail themselves at once to send in their orders. No better evidence of Southern California's advantages could be sent to Eastern friends.

News Notes.

The case of Captain Thornton for libel, was yesterday continued to June 11th.

Herr Conrad Jacoby, of the *Sud Post*, has been commissioned a Notary Public.

The grand excursion to Polomares leaves the First street depot at 9:20 this morning.

G. Wiley Wells, Esq., was yesterday purged of the contempt of Court which he was charged with committing.

It was reported yesterday that Mrs. John F. Smith mysteriously disappeared from Fulton Wells on Saturday night.

Judge Gardiner is comfortably fixed in his new court-room in the HERALD building, and is handling Probate business with ease and dispatch.

The programme for the Y. M. C. A. concert to-morrow evening is most attractive, and there will be a large crowd in attendance. It will take place at the Pavilion.

Contractor Sandham, of Pasadena, has been engaged to superintend the erection of buildings at Arcadia. Work commences on H. A. Uuruh's residence at that town to-day.

The alarm of fire turned in from box No. 15 last night was false. Some one had obtained a key to the box and evidently turned in the alarm maliciously. The party could not be found.

Los Angeles Chapter, No. 33, R. A. M., will hold a special convocation on Wednesday evening for work in the Royal Arch degree. Visiting companions and members of Signet Chapter are invited.

Mrs. J. Irvine and Mr. J. W. Byrne arrived from San Francisco yesterday. This, taken in connection with the arrival of Hon. A. J. Bryant, looks as if something was to be done about the San Joaquin rancho.

Last evening Sydney Carton claimed that she had been robbed of $100 by one of the girls who had left the house in the evening. She left her purse on the table, and after the girl had gone the money was discovered to be missing.

Yesterday afternoon an unknown man stepped off from a car near the corner of Spring and Temple streets, and was run into and knocked down by a team of horses. He was picked up and placed in a carriage and driven to his home, but his name was not ascertained.

The movement to widen First street is now on foot, and the property owners between the river and Alameda streets have all signed the agreement to widen. J. P. Widney and others are now working on the owners between Main street and Alameda. The work should be pushed.

Mrs. W. F. Williams called at the police station last evening and stated that her husband had driven her out of the house. Officer Arguello went to the house on the corner of Alameda and Second streets and arrested Williams and a man named McGowan, who were charged with disorderly conduct.

A year ago Wm. Niles and H. W. Mills contracted to buy a certain piece of property on Upper Main street from M. G. Santa Cruz and his wife for $15,000. A first payment of $1500 was made, and Niles & Mills got an agreement to convey. On the day the agreement was made Mrs. Santa Cruz filed on the property as a homestead, and got in before the agreement was recorded. The case came up before Judge Hutton yesterday and he decided that the property belonged to Mrs. Santa Cruz, but gave Niles & Mills judgment for $1500.

Always one of the most robust men in the State, mentally and physically, he has recovered much of his old time vigor. He is engaged with his customary energy in building towns and encouraging settlement in Tulare county.

SCHOOL TEXT BOOKS.

A Puzzle About $20,000 of the Fund.

At the meeting of the State Board of Education on Saturday, a report was made of the condition of the Text Book Fund, as follows: "Of the $150,000 originally appropriated for plant and the manufacture of school text books, on May 28th there was left unused $888.18. The last Legislature appropriated $7500 for the same purpose, leaving a balance on hand of $8388.18 available. Against that amount there is in the hands of the Board of Examiners $3363.05, the amount of the pay roll, leaving an unexpended balance of $5025.15. After July 1st there will be plenty of money on hand.

State Printer Shoaff presented an itemized account of the cost of 25,000 arithmetics, 4800 of which are now completed. Some figures were regarded as rather steep. For electrotyping $1.75 per page is charged, when from 60 to 75 cents per page, it is said, would be a liberal charge. The Board, however, fixed the price of the Arithmetic the same as the Second Reader, namely: 30 cents at Sacramento, 38 cents by mail and 35 cents to retail dealers.

"The Secretary of the Board was instructed to notify the State Printer that material will be required for not to exceed 1,000,000 [?] books.

"One thing which puzzles the Board is, that taking the figures of ex-State Printer Ayers of the money on hand when he retired from office and the expenditures since that time, there is an unexplained deficiency of about $20,000. Either the money was not on hand or the manner of its expenditure cannot now be accounted for. The matter will be further investigated."

[Ex-State Printer Ayers, in answer to the above says that his supplemental report to Governor Bartlett, (page 8) dated January 12, 1887, made out upon the eve of his retiring from office, gives from the Controller's books the following official balances in the Text Book fund December 31st, 1886:

Balance on hand June 30, 1886	$57,580.31
Expenditures for first half 38th fiscal year	28,131 03
Amount on hand Jan. 1st, 1887	$29,449.28

These figures were corroborated by the blotter of the ex-State Printer, for in another part of his report he says (page 7): "I find, by reference to my blotter, that the expenditures on text-book account for the first six months of the present fiscal year [from July 1st, 1886 to December 31st, 1887] including December 31st, 1886, amount to $28,622.51." The blotter shows an excess of expenditure over the balance on the Controller's books of $491.48, which is probably accounted for by bills in the hands of the Board of Examiners that had not then reached the Controller. However that may be, the fact is that ex-State Printer Ayers left, as the Controller's books will show, an unexpended balance of $29,449.28. It is not possible that the "money was not on hand" at the time, and it is utterly impossible that there could have been an unexplained deficit of $20,000 at the time ex-State Printer Ayers made his supplemental report, or at any other time.

CATARRH!

No. 275 Main Street,

CATARRH.

THE TERM CATARRH IS APplied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent and is productive of very serious consequences.

The most prominent and characteristic features is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acid fluid, but oftener an offensive, purulent, or muco-purulent, greenish-yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow down wa d, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with gluish tenacity. Its lodgment embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucous into the throat so as to eject it by the mouth. This practice, popularly known as "hawking," is characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by way of the nos ils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal is usually erquires the most violent efforts; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which in time may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrifies, giving rise to a stench which is really overpowering and sufficiently fetid to poison the atmosphere of a whole room; and there are others in which all the secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temple, on the top of the head, at the back of the neck, or behind the orbits, and occasionally pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceeding fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable stuffy sensation in the head, and occasioning violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffing quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat and frequent attempts to clear the parts of phlegm, producing the sound "hem" more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others, again, speak of constant bad or nauseous taste in the mouth or throat.

The stomach generally suffers more or less and becomes weak and irritable; the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility; is nervous, depressed in spirits, at times fearful, timid, agitated and inclined to drowsiness and sleep, the memory weakened and permanent impairment threatened.

The mucus membrane soon becomes morbidly sensitive to unfavorable influences, and in spite of the utmost care becomes affected from the slightest causes, so that at last a breath of wind upon the lining of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse and involving a larger extent or surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larynx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucus membrane, such as the stomach, bowels, kidneys, etc.

By the employment of proper inhalations in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the pharynx and nasal passages, for air will find its way into the most remote and intricate cavities, where it is utterly impossible to make fluid applications. By these means every case can be cured.

OZCENA.

Ozcena is the professional or technical name given to the advanced form of catarrh in which ulceration has eaten through the membrane lining of the nose to the cartilage of the bone. Any case of catarrh may end in ozcena, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or through the throat, and is generally of a yellowish or greenish yellow color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of Dr. Wood, of Philadelphia, "The disease is one of the most obdurate and disagreeable which the physician has to encounter. In bad cases the breath of the patient becomes so revolting as to isolate him from society and to render him an object of disgust even to himself." In some cases pieces of bone become separated and slough off, leaving deep, unhealthy ulcers, which secrete a bloody matter and are extremely difficult to heal. After ozcena has continued for some time the sense of smell usually becomes impaired and often lost. Deafness is one of the most common consequences, and results from its extension through the eustachian tubes to the internal ear. Pains in the head add over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain. The greatest danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present in some degree, and in many instances it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catarrh or ozcena, there are others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes, by isolating them and preventing their settlement in life. An offensive running from the nose, with foul breath, is about as great a calamity as can befall young people, for no young people should ever think of marrying while afflicted with catarrh.

Those who visit Southern California, after trying every known remedy and failing in obtaining health through climatic changes alone, would do well to try this wonderful system, which is revolutionizing the whole medical science and effecting cures in this very city in persons given up to die.
